EXTERNAL SIDE OF WINDOW

Due to printing and manufacturing technology colour deviations between illustrations in this brochure and original products may occur. Your Internorm distribution partner will gladly show you original samples.

* All standard colours highly weatherresistant, except M916 (facade quality)

** Intensive colour appearance, however colour tolerances possible.

*** For surface versions HF (highly weather-resistant fine structure), HFM (highly weather-resistant fine structure metallic), HM (highly weather-resistant standard colour) and HDH (highly weatherresistant timber decor colour) a special highly weather-resistant powder coating is applied.

**** HDH colours have a lively timber appearance being hand-finished with pattern coating, however colour tolerances are possible.

SPECIAL COLOURS

A variety of design possibilities is offered by the Internorm RAL colour range (facade quality). Applies to aluminium outside and timber inside.
